

## **Transmission Line Specialist - Devoll Hydropower - Albania**

Devoll Hydropower SHA (DHP) is a wholly owned company within the Statkraft AS Group of companies. DHP has been awarded a Concession Agreement by the Albanian Government to develop, build, own and operate three power hydropower plants on the Devoll River in Albania with an installed capacity of approximately 280 MW. Start of construction is expected in 2013. This is a project position up to second quarter 2015 with future perspectives for further positions in Statkraft's large hydropower projects.

Project site is located on Devoll river, near Elbasan, Gramsh/Albania.

### **Your role:**

The Transmission Line Specialist reports to Contracts Manager for the Devoll Hydro Power Project and is part of the DHP project organization responsible for implementation of the Banja and Moglice hydro power plants.

- Monitor, quality assure and audit Owner's Engineer's management of the implementation of 20, 35, 110 and 220kV transmission lines
- Monitor progress on transmission lines
- Monitor quality of work performed on site and its compliance with contracts
- Audit survey and measurement process
- Review documentation, i.e. inspection and test reports
- Control, comment and confirm progress reports and invoices received from contractors via Owner's Engineer
- Assess and advice on Method Statements, Safe Job Analysis, Risk Management, QA-plans, Environmental Management and Action Plan and other plans and documentation of technical nature related to transmission lines
- Support Contracts Manager in preparation of weekly and monthly reports
- Support Contracts Manager in contingency and change order management
- Document progress, quality and volumes by pictures
- Check As-built documentation
- Support and assure execution of information handover to Operations

### Your profile:

- Bachelor / Master degree in Civil, mechanical or Electrical Engineering
- Minimum 10 years experience from design and construction of high voltage transmission line projects
- Experience in supervision of contracts and contractors
- Fluent in English both oral and in writing – Albanian and other languages an advantage
- Computer literate in MS Office applications
- Team player with international experience with high integrity and ethical standard
- Independent, self-propelled – a person who can follow up and deliver on time according to set standards
- Some travelling will be required

### Devoll Hydropower offers:

- Professional and personal development in a company experiencing growth
- A positive working environment characterized by competence, responsibility and innovation
- A diverse workplace with regard to gender, age and cultural background
- Competitive terms of employment and benefit schemes
